## PROJECTS

### OSWAL CROP PROTECTION PVT. LTD.

**Aim:** To create a modern, responsive platform that effectively showcases agricultural products and solutions while delivering a seamless and informative user experience.

**Responsibility:** Rebuilding the website with a modern design, enhancing user experience, showcasing products clearly, ensuring responsiveness across devices, and maintaining content accuracy and performance.

### Little Scholar

**Aim:** To provide an interactive and visually engaging online platform that supports early childhood education by offering age-appropriate content, intuitive navigation, and a safe learning environment for young learners.

**Responsibility:** Designing a responsive and child-friendly interface, integrating educational content, ensuring accessibility and security, testing and maintaining the site, optimizing performance, and managing content updates.

### Organic E-Commerce Shop Website

**Aim:** To develop a dynamic e-commerce website for organic products that offers users detailed information and easy access to the most authentic and high-quality items

**Responsibility:** Designing and developing a responsive e-commerce platform, integrating product details and secure payment systems, ensuring user-friendly navigation, optimizing performance, and managing product listings and updates.

### Interactive Website Development OF And Institute

**Aim:** To create a dynamic website of an institute from which users can get details about the college and can register for the college for admission.

**Responsibility:** Coding, Testing, Documentation, Project Manage & Review

### Blood Pressure Prediction MODLE

**Aim:** This study aims to predict systolic blood pressure and diastolic blood pressure based on age and weight and to evaluate the relative importance of each clinical variable used in bp prediction models.

**Responsibility:** Data Analysis, Model Building, Maintenance, Coding, Documentation.
